

FAQ's of Polystyrene Moulding

Polystyrene Benefits:

- Offering the latest finishes, with the appearance of real wood.
- Sticks are easily cut, stapled, and v-nailed, just like wood.
- Polystyrene is water proof and free of bugs.
- All sticks are a uniform length of 9.5 feet.
- Competitive pricing.

Hints for Better Cutting:

- A 3mm saw blade, with few teeth, operating at a faster speed, is recommended for best results, using our saw blade.
 - 12" Saw - less than 120 Teeth with over 3,000 rpm
 - 14" Saw - less than 120 teeth with over 3,000 rpm.
- Cut Polystyrene just like wood. Do not slow down to cut.
- Polystyrene glues just like wood, using our plastic glue.
